

ANNOUNCEMENT

Maintenance Release

March 2012

Formtek releases version 5.4.2 of the Formtek | Orion 5 product suite with Full-Text Search support. This release includes the following products (available in English on all specified platforms and Traditional Chinese on the Windows® platform):

- **Foundation Server - Windows, Linux®, and Solaris™**
Includes:
 - **Orion Vault**
 - **Administration**
 - **Command Server**
 - **Full-Text Server (new for Full-Text Search)**
 - **License Server**
 - **Storage Server**
- **Access - Windows and Linux**
- **Pure Java API - Windows and Solaris (Linux previously released)**

The Orion 5 Full-Text Server is a Java-based application that utilizes the powerful full-text search feature of the Apache Solr open source enterprise search platform to provide full-text indexing and search capability. At its core, Solr uses the Lucene Java search library for full-text indexing and search.
