

Formtek secures a three-year ECM software contract commitment from Tulare County, CA

Alfresco One Supports County Service Delivery

Concord, California USA — [Formtek, Inc.](#) announced today that it has received a three-year contract commitment from the County of Tulare, CA. The three-year license and support renewal with Formtek for Alfresco software licensing and support was unanimously approved by the Tulare County Board of Supervisors at their July 21, 2015 meeting.

The renewal includes Alfresco One software subscriptions as well as Formtek Level-1 software support. Alfresco One is an Enterprise Content Management (ECM) platform that manages and synchronizes content across cloud and on-premises repositories. Alfresco One software manages more than 7 billion documents for thousands of companies worldwide.

Formtek has been an Alfresco Partner since 2007. Formtek is an authorized reseller of Alfresco One software and provider of value-added implementation services. Formtek is also an Alfresco-Certified Technology provider, and one of only a select few Alfresco Partners in North America that have been authorized to provide Level-1 software support.

Tulare County Information & Communications Technology (TCiCT) uses Alfresco One as a collaboration and document management system. Alfresco software has enabled TCiCT and County clients to collaborate on various projects, and facilitates TCiCT's own internal forms and policies.

“The County’s five-year strategic plan includes organizational effectiveness and fiscal stability,” stated the request submitted to the Board by Peg Yeates, Information & Communications Technology Director. “The Alfresco software license commitment helps fulfill this initiative by providing state-of-the-art infrastructure to support better service delivery through collaboration and document sharing.”

About Tulare County

Centrally located within the State of California, Tulare County is situated in a delightful and geographically - diverse region. The County includes an area of 4,863 square miles. Mountain peaks of the Sierra Nevada range rise to more than 14,000 feet in its Eastern half. The extensively cultivated and very fertile valley floor in the Western half has allowed Tulare County to become the second-leading producer of agricultural commodities in the United States.
