

ANNOUNCEMENT

Version Release

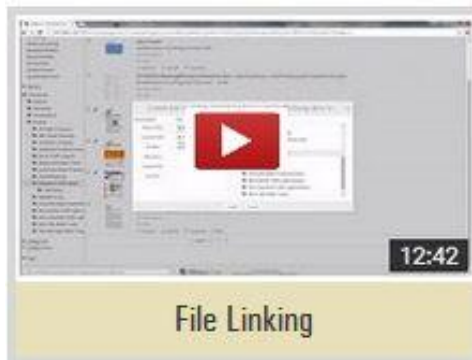

The Formtek File Linking Extension 2.3 release is now available for Alfresco 5.1.x.

- Allows a single document or folder to be accessible from multiple locations
- Any user with access to a document or folder is able to create a reference in any number of locations that links back to that document or folder
- Changes made to the physical item or its metadata are immediately accessible from all referenced locations
- Current customers of the Formtek File Linking Extension may download the software and documentation from their account at [Formtek Support](#)

New in this release are the capabilities to:

- Create a link on a folder
- Move or copy a link
- View a traversable list of all link locations on an item
