

ANNOUNCEMENT

Version Release

The Formtek Version Browser Extension is now available for Alfresco 4.2.

The Formtek Version Browser Extension is integrated with the Alfresco Share application to allow you to browse a document's versions and view associated properties as well as the preview of the version's content. Download and View In Browser commands are also available for each version.

Current customers of the Version Browser Extension may download the software and documentation from their account at support.formtek.com.

The Formtek Version Browser Extension is one of several Formtek Extensions designed to increase the capabilities and productivity of your Alfresco implementation.

- Peer Association
- File Linking
